

Unlock the Treasures of APTA's Website

APTA offers a wide range of programs, services, and resources to our members. Memberships are established by organizations. **All employees of APTA member organizations are considered members** and are encouraged to take advantage of the member resources and benefits available to them.

Much valuable information can be found on APTA's website. APTA members have access to protected areas of the website for member-only information but must be logged in to the site to visit these protected links. The online Member Directory, procurement links, comprehensive committee information and collaborative committee sites are just a few of these valuable information resources. See below for more details.

Member Resources
