- Part III - Regional Central System Interface Standard
- Part IV - Security Planning and Implementation Guidelines and Best Practices
- Part V - Compliance Certification and Testing Standard

Contactless Fare Media Standard

Part V – Developments

- Comments finalized
- Completed 30-day review
- Publish as part of the Standard – in process

Contactless Fare Media Standard

CFMS – Future Actions

- Limited Use media and other form factors
- Sub-system to Sub-system interoperability
- Account based transactions, “Open Payment” type transactions, Mobile type transactions
- Collaboration with combination Payment/Transit applications
- Security – base minimum level

Contactless Fare Media Standard

CFMS – Future ?

- How to proceed forward
- Reach out to Transit agencies ... do the agencies want this as a requirement of their AFC systems
- Collaboration with Ontario's OIS standard (PRESTO)
- Implement example application for Part II (use in outreach / small agency example)
- Others PATCO, Path
- Maintenance of the standard

Thank you very much for
your attention
