

How the Press Uses Social Media

A new way to connect to
information and to people.

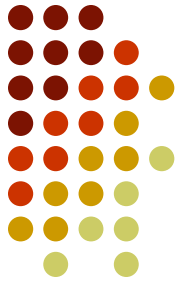

WIKIPEDIA

- A starting point for general information

The screenshot shows a web browser window displaying the Wikipedia article for the American Public Transportation Association. The browser's address bar shows "American Public Transportation Association". The page title is "American Public Transportation Association". The article text states: "The **American Public Transportation Association** is a non-profit organization which serves as an advocate for the advancement of public transportation programs and initiatives in the *United States*. Since its founding in 1882, APTA has educated the public about the benefits of public transportation through organized bus, light rail, rapid transit and other programs. It lobbies the U.S. Congress and local government bodies in favor of public transportation improvements and new developments. The APTA holds an annual convention and EXPO; the location varies from year to year. It also oversees the annual International Bus Rodeo. APTA publishes a biweekly news magazine, called *Passenger Transport*. Effective January 1, 2000, the organization's name was changed from American Public *Transit* Association to American Public *Transportation* Association.^[1] APTA had about 1,270 member organizations at that time.^[1] As of 2009, the head of APTA is Beverly Scott, who is also the head of the Metropolitan Atlanta Rapid Transit Authority (MARTA) in Atlanta.^[2]" The page includes a "References" section with two entries: 1. ^ a b Millar, William W. (APTA president) (March 7, 2000). "About APTA (excerpt from "APTA Testimony on")" . APTA. Retrieved 2009-08-20. 2. ^ "MassTransit: People" . The page also features an "External links" section with one link: "American Public Transportation Association" . Retrieved 22 December 2005. At the bottom, there is a message: "This article about transport is a stub. You can help Wikipedia by expanding it." and a list of categories: "Public transportation in the United States | Transport associations | Non-profit organizations based in the United States | 1882 establishments | Transportation stubs".
