Thank you for annually reporting on your efforts to fulfill the goals of the APTA Sustainability Commitment.

If you choose to share - which is highly recommended - we will provide this valuable information to other Commitment signatories to help with their future reporting.

For reporting progress or applying for higher recognition, you may use the following template as a transit agency or business member.

For an abbreviated version of the reporting form, please fill the e-form on the next page.

Please enter your personal and organization details:

First Name
Lolalisa

Last Name
King

Title
Sustainability Strategist

Organization
Architect for Life - A Professional Corporation

City
Houston

State
TX

Email Address
lking@architectforlife.com

Phone Number
888-986-7771

Agree to share the information you submit with future applicants and fellow APTA Sustainability Commitment signatories:
Yes

1. Please select your level of progress on each of the core elements of the Commitment:

<table>
<thead>
<tr>
<th>Planned</th>
<th>In Progress</th>
<th>Completed</th>
<th>N/A</th>
</tr>
</thead>
<tbody>
<tr>
<td>Making sustainability a part of your organization’s strategic objectives</td>
<td></td>
<td></td>
<td>✓</td>
</tr>
</tbody>
</table>

If you have made sustainability a part of your strategic objectives, or are working to do so, please explain:

The culture of the organization consists of folks who believe not only in Architect for Life, but in the mantra that we can create
and help our clients obtain and maintain sustainable businesses along side sustainable buildings. The proof is in the documented cost savings achieved in the utility bills. Check out the cost savings tab on our Architect for Life website. The organization stands on our three-prong objectives: to deliver and maintain 1) sustainable environments, 2) sustainable businesses, and 3) sustainable lives.

2. Please select your level of progress on each of the core elements of the Commitment:

<table>
<thead>
<tr>
<th>Planned</th>
<th>In Progress</th>
<th>Completed</th>
<th>N/A</th>
</tr>
</thead>
<tbody>
<tr>
<td>Identifying a sustainability champion within the organization coupled with the proper human and/or financial resources and mandates</td>
<td>✔️</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

If you have identified a sustainability champion, or are working to do so, please elaborate:

At Architect for Life, we believe that the champion starts at the top with the President of the organization. She sets the tone with everything from our supply chain to our indoor air quality to our waste stream management plan. The day-to-day implementation oversight falls on our Green Team Leader.

3. Please select your level of progress on each of the core elements of the Commitment:

<table>
<thead>
<tr>
<th>Planned</th>
<th>In Progress</th>
<th>Completed</th>
<th>N/A</th>
</tr>
</thead>
<tbody>
<tr>
<td>Establishing an outreach program (awareness-raising and education) on sustainability for all staff of your organization</td>
<td></td>
<td>✔️</td>
<td></td>
</tr>
</tbody>
</table>

If you have established an outreach program on sustainability for all staff, or are working to do so, please elaborate:

At Architect for Life, all associates are initiated into the organization through Sustainability Orientation. We are required to document at least 18 continuing education credits each year in sustainable design in addition to the sustainability credits we must document every two years with the United States Green Building Council (USGBC) to maintain our LEED-Accredited Professional status.

4. Please select your level of progress on each of the core elements of the Commitment:

<table>
<thead>
<tr>
<th>Planned</th>
<th>In Progress</th>
<th>Completed</th>
<th>N/A</th>
</tr>
</thead>
<tbody>
<tr>
<td>Undertaking a sustainability inventory of your organization</td>
<td></td>
<td>✔️</td>
<td></td>
</tr>
</tbody>
</table>

If you have established base-line measurements of sustainability indicators, or are working to do so, please explain:

At Architect for Life, we have benchmarked our utility bills, along with the utility bills of our clients in a Department of Energy recommended software called Portfolio Manager. It is this same software that one uses to apply for an Energy Star rating for leased or owned buildings. Our reports and graphs show the substantial energy savings we and our clients obtain through our effective energy efficiency program management. We also benchmark internal office procedures and selections which affect our indoor air quality, supply chain and waste stream.
