Project team: Chris Andrichak, team coordinator, (AC Transit); Fred Edwards (San Francisco Bay Area Rapid Transit); Donald Luey (Foothill Transit); Tomika Monterville (LYNX – Central Florida); Skip Benz (Metra); Akiko Ito (East Japan Railway)

Synopsis: What are the cybersecurity threats that are, or should be keeping Transit GMs and CIOs up at night? Transit agencies need to protect not only their system's physical infrastructure from possible attacks, but also sensitive agency and customer data. This requires that employees understand cybersecurity risks and how they should handle it. What are the biggest threats and how should public transit agencies respond?
