

June 22, 2022

The President  
The White House  
Washington, D.C. 20515

Dear Mr. President:

The Americans for Transportation Mobility (ATM) coalition and the Transportation Construction Coalition (TCC) opposes any and all efforts to undermine recent and historic infrastructure investments, including suspending federal and state motor fuel user fees, commonly known as “gas taxes.”

American consumers are facing significant economic anxieties brought about by record inflation, continuing supply chain issues, high energy prices, labor shortages, and continued concerns over the COVID-19 pandemic. These stiff economic headwinds demand your administration’s full attention and prompt action but suspending the gas tax would not have a meaningful impact on addressing these challenges.

Doing so, however, would very likely hurt efforts to improve the safety and condition of our roadways, bridges, and transit systems. It would also undermine efforts to create jobs and realize the once-in-a-generation investments in our nation’s infrastructure by the historic and Infrastructure Investment and Jobs Act (IIJA).

Gas tax revenues are fundamental to the solvency of the Highway Trust Fund (HTF), which helps fund these critical transportation programs. Support for a gas tax holiday risks undermining funding for these efforts, which is essential for our economy’s long-term, sustained growth. The decline in revenues to the HTF also jeopardize the certainty necessary for our state and local partners to plan long-term projects and the association hiring and equipment purchasing required.

Your administration must continue the march towards full implementation of IIJA policies and investments. This is necessary for America’s long term economic health and competitiveness. As you consider options for addressing global inflationary pressures, it is critical that we do not inadvertently undermine our mutual goal of rebuilding our infrastructure systems and networks to remain competitive in a 21<sup>st</sup> century global marketplace.

Sincerely,
