

Hi Sean – hope that you are doing well. I’d once again like to thank Congressman Price for his leadership with the CARES Act – the funding provided by CARES for public transportation has made a big difference for us and frankly was the difference between maintaining service levels and making service cuts for the upcoming fiscal year.

I am also writing to encourage the Congressman’s continued support for H.R. 2, the “Investing in a New Vision for the Environment and Surface Transportation in America Act” (INVEST in America Act). The INVEST in America Act makes critical investments for surface transportation infrastructure, including \$105 billion for public transportation – which is critical to Chapel Hill Transit and could benefit our North South BRT project. It also provides a long-term vision to address the more than \$100 billion state-of-good-repair backlog in public transit infrastructure (which has been a long standing challenge for Chapel Hill Transit and many systems in North Carolina) and meet the mobility demands of growing communities.

Thank you listening and thank you for your continued support of public transportation, as systems like Chapel Hill Transit continue our efforts to improve mobility, create living-wage jobs, support our local economies and addresses the environmental and sustainability challenges facing the communities we serve.

Best regards and be safe,

Brian M Litchfield
Director
Chapel Hill Transit
