F.   Disclosure of use of artificial intelligence (AI)

All counsel and *pro se* parties must disclose the use of artificial intelligence (AI) in any capacity to prepare documents submitted to the Court. If AI was used in any way to prepare a filing or submission to the Court or chambers, counsel and/or *pro se* parties are **REQUIRED** to sign and file a Disclosure of Use of Artificial Intelligence stating, as follows:

"This document was generated with the assistance of [identify AI tool name]. I hereby certify under penalty of perjury that, despite reliance on an AI tool, I have independently reviewed this document to confirm accuracy, legitimacy, and use of good and applicable law, pursuant to Rule 11 of the Federal Rules of Civil Procedure."

Counsel and *pro se* parties are cautioned that mistake, lack of technical expertise, and time constraints are typically not recognized by the Court as a good faith excuse for submission of documents that either violate Rule 11 or this disclosure rule. In particular, arguments in briefs to the Court which are supported by AI-generated caselaw (i.e., cases that do not actually exist) are not acceptable.

Counsel and *pro se* parties shall not input, upload, or otherwise expose any information subject to a protective order into any artificial intelligence program, tool or application.

Failure to comply with this rule may result in appropriate sanctions, up to and including dismissal or entry of default.

III.   CASE MANAGEMENT

A.   Motions for temporary restraining order or preliminary injunction

Any request for a temporary restraining order ("TRO") or for preliminary injunctive relief must be made by a **separate motion**. A request for a TRO or preliminary injunction found only in the complaint will not be considered. After filing an appropriate motion, the movant must contact Ms. Wright to request expedited consideration.

Any motion for TRO or preliminary injunction which requests injunctive or equitable relief should be accompanied by a proposed order.
