Subject: Repealing Highway Contract Authority Rescission in FY 2020 CR

Dear Congressional Leaders:

As Congress continues to work on Fiscal Year 2020 appropriations, if a Continuing Resolution (CR) is necessary for a period of time in order to complete this appropriations process, we urge you to include in any such CR a repeal of the rescission of \$7.6 billion in Federal-aid highway contract authority scheduled to occur in July of next year.

Section 1438 of the Fixing America's Surface Transportation Act (FAST Act; P.L. 114-94) rescinds \$7.6 billion in unobligated Federal-aid highway contract authority on July 1, 2020. All 50 states and the District of Columbia will be hurt by the rescission, including close transportation partners of these states. If allowed to take place, this provision will virtually wipe out all remaining contract authority available to states nationwide in the core highway formula programs subject to the rescission. In addition, the rescission will significantly depress the tenyear budget baseline for surface transportation programs beginning in Fiscal Year 2021, undermining significant bipartisan support in Congress and the Administration for boosting federal infrastructure investment.

While we are disappointed that the repeal of this rescission was not included as part of the recent two-year budget agreement, it is still very important that Congress repeals the impending rescission this month in order to provide stability to federal surface transportation programs. Rescinding highway contract authority impedes the ability of states to meet their individual infrastructure needs and disrupts transportation planning and timely delivery of projects. The planned rescission next summer is already starting to impact project construction, which will delay mobility, quality of life, and economic benefits provided by these projects if unaddressed soon.

The undersigned associations and organizations, representing a diverse group of national associations that support investment in our nation's transportation infrastructure, respectfully request the repeal of \$7.6 billion rescission of contract authority as part of any CR considered by Congress this fiscal year.

Sincerely, Forty-one Transportation Associations and Groups (Please see next page for the full list.)
