

# Leveraging Predictive Analytics to Turn Big Data into Operations Improvement

**Pete Nelson**

Solutions Architect, Quintiq  
Radnor, PA

© 2017 Quintiq, a Dassault Systèmes company

Rail Conference

# Key presentation takeaways

- ✓ Predictive analytics in operations
- ✓ Using predictive analytics to improve scheduling
- ✓ Best practices in implementing predictive analytics

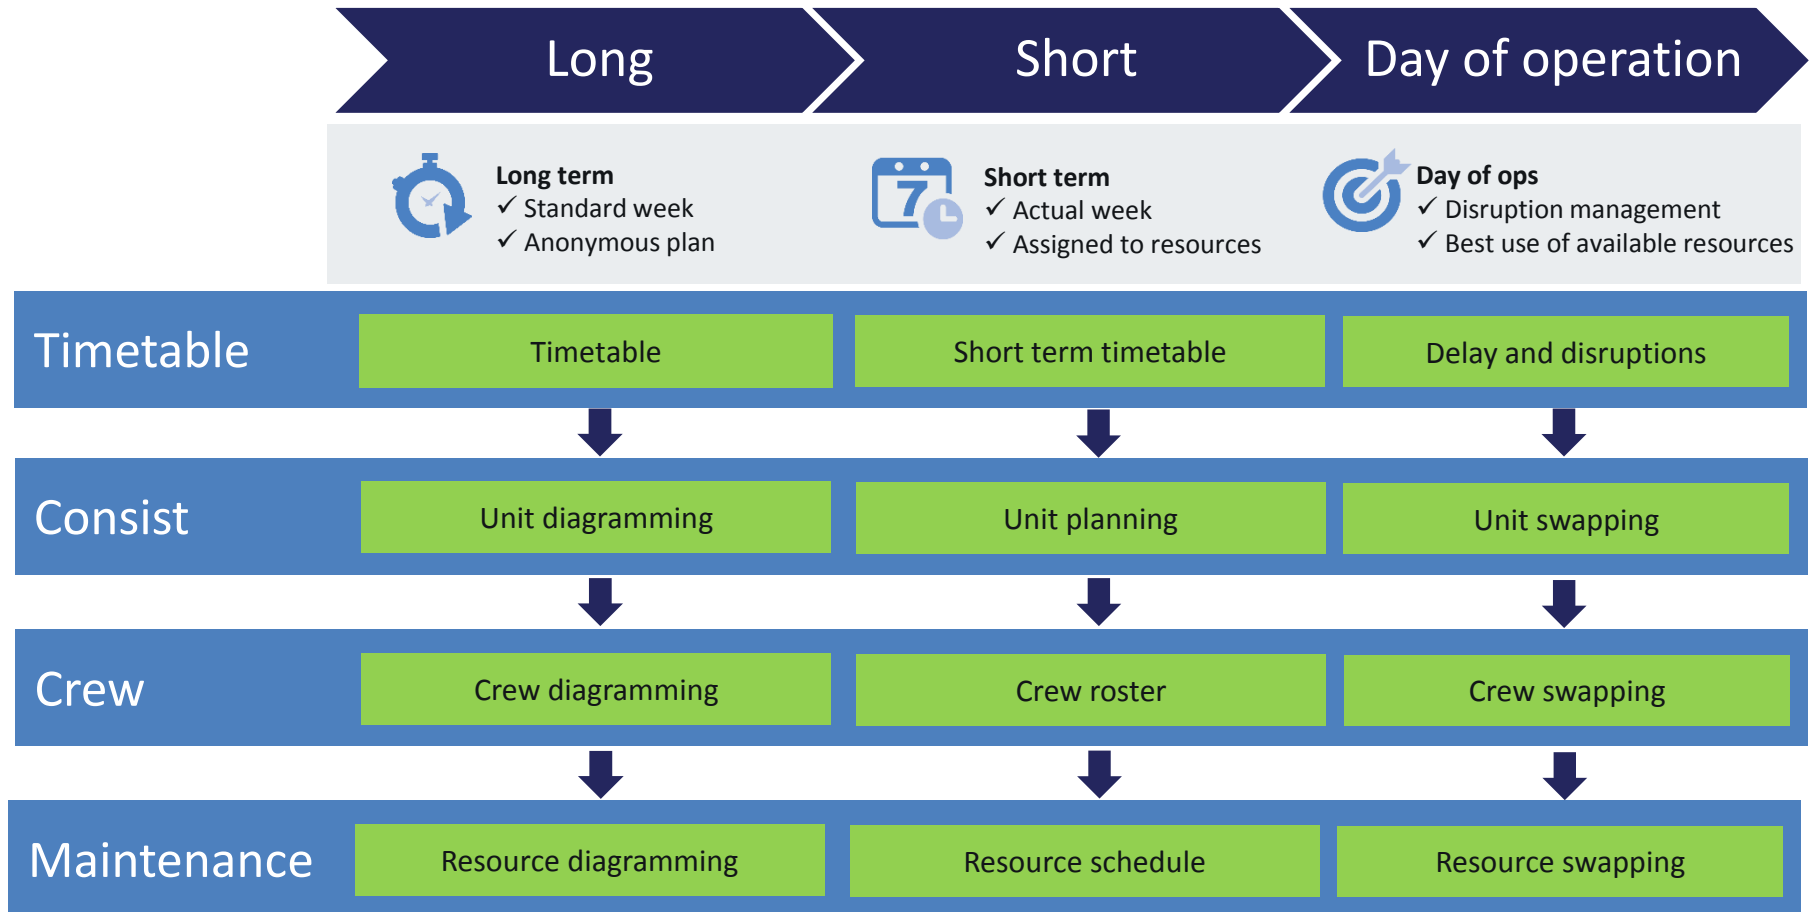

# About Quintiq

Develop a single application capable of solving any type of planning puzzle

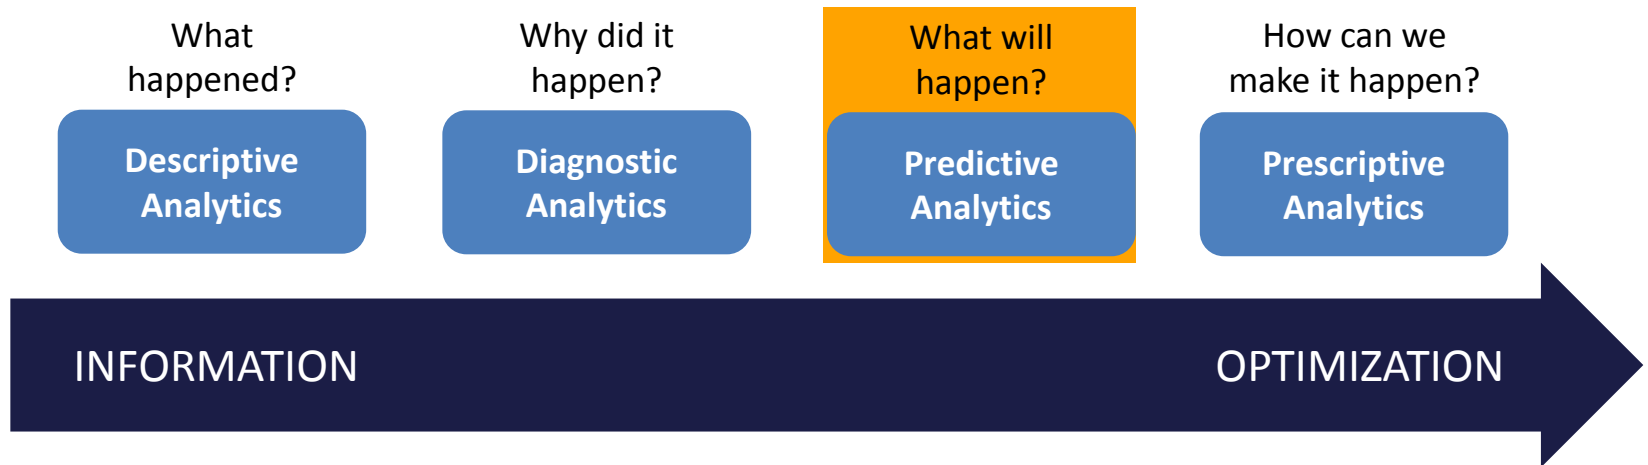

# Quintiq in Rail

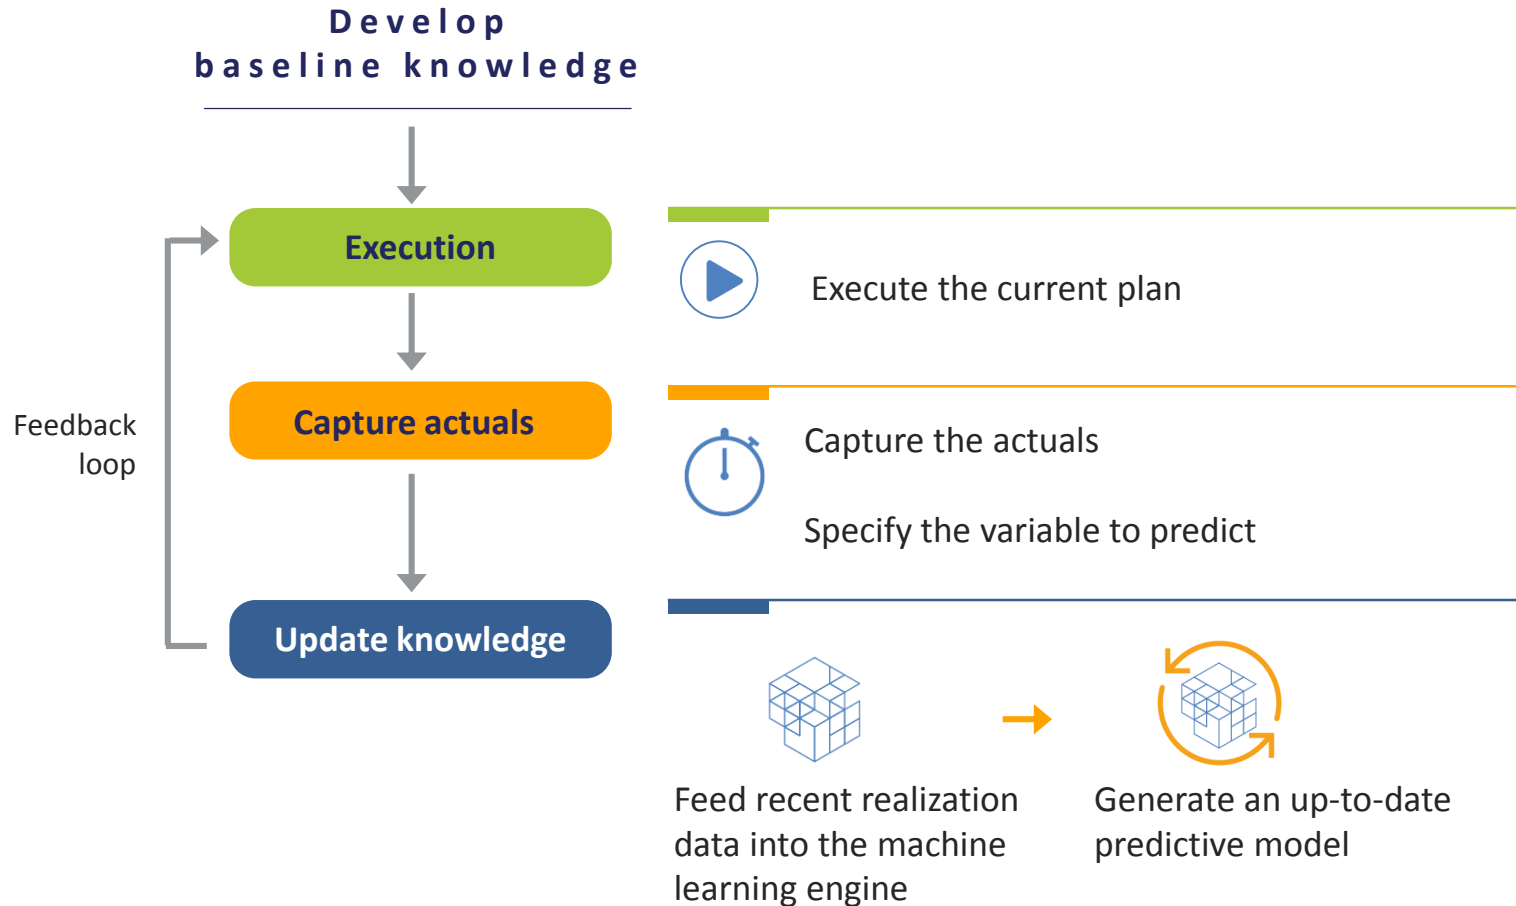

# The explosion in public transport data

Trend	Effect on Operations
<b>Internet of Things (IoT)</b>	<ul style="list-style-type: none"><li>• Track conditions</li><li>• Rolling stock conditions</li></ul>
<b>Operational and asset systems</b>	<ul style="list-style-type: none"><li>• Time and attendance</li><li>• Maintenance and task durations</li><li>• Service performance</li></ul>
<b>Fare and revenue systems</b>	<ul style="list-style-type: none"><li>• Ridership data</li><li>• Revenue trends</li></ul>

# The stages of advanced analytics

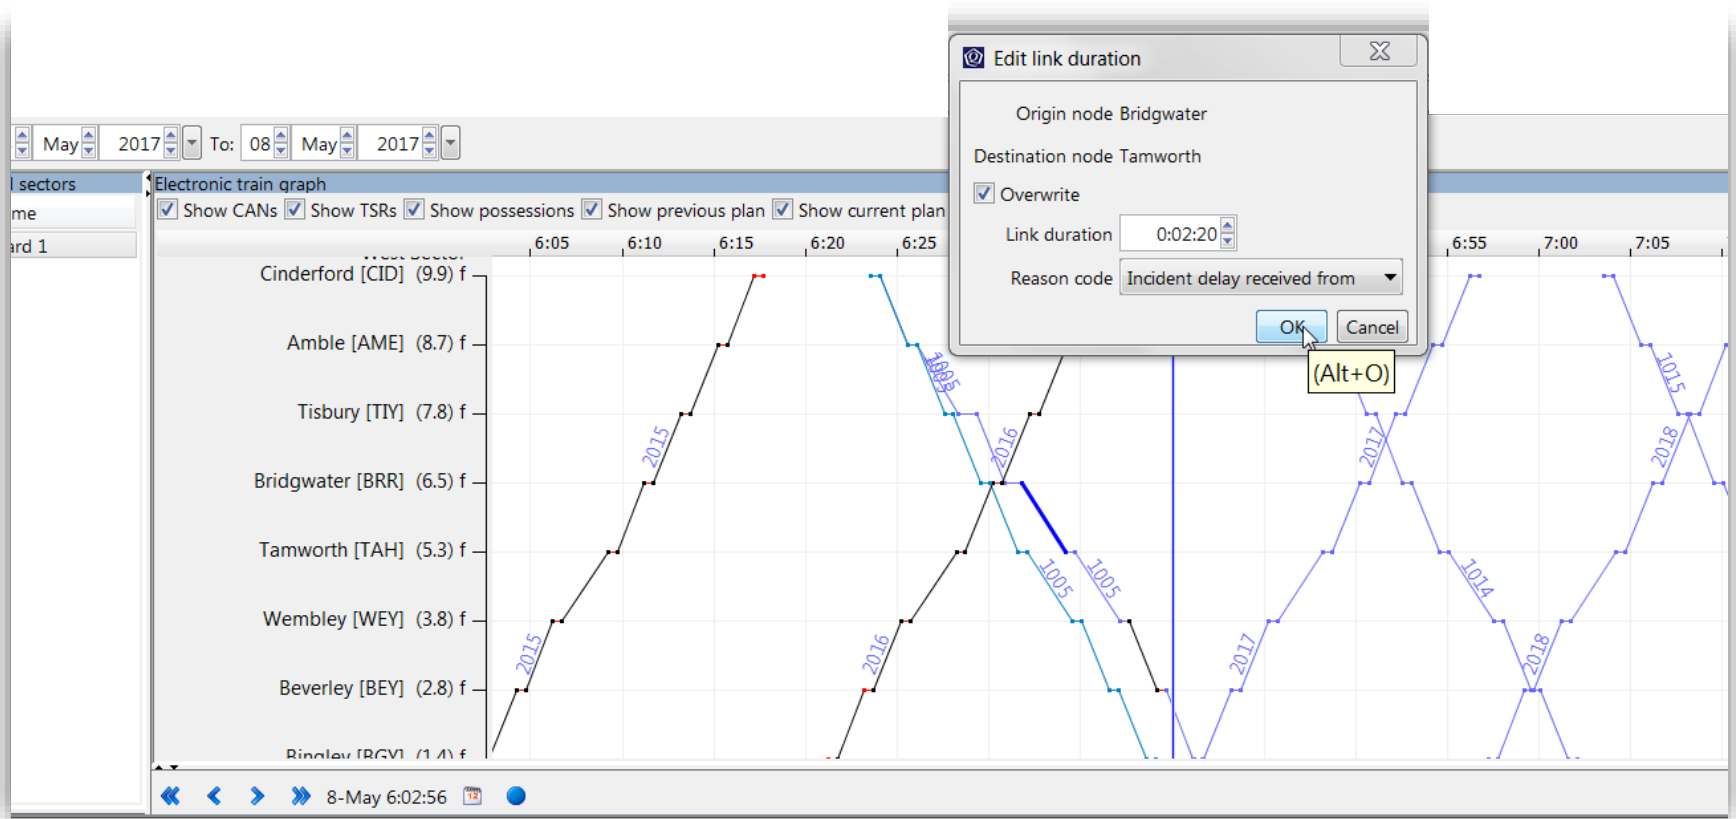

# Gaining value from past performance

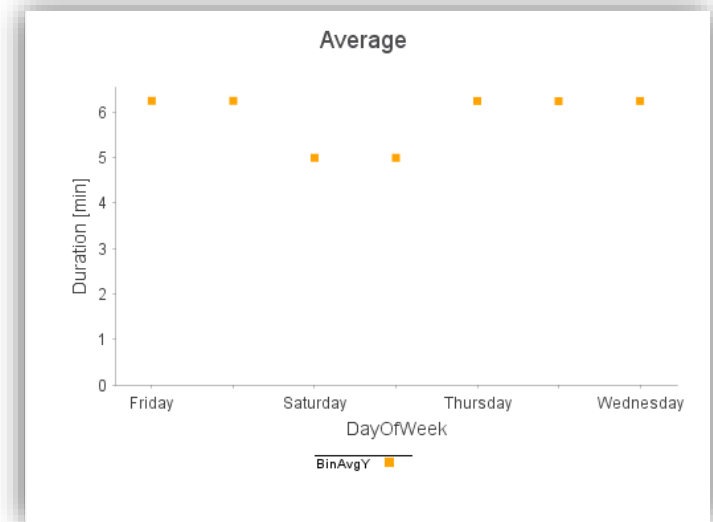

# Capturing actual dwell times

# Predictive analysis of dwell times

Decision tree

NodeRule	Segment range	Mean
root		5,90
To= Beverley, Cinderford, Wembley		4,69
From= Beverley, Wembley		3,49
DayOfWeek= Saturday, Sunday		2,96
DayOfWeek= Friday, Monday, Thursday, Tuesday, Wednesday		3,70
From= Amble, Tamworth		5,88
To= Amble, Bridgwater, Tamworth, Tisbury		6,49

# Predictive analytics in maintenance planning

# Where is the value in rail operations?

	<b>Timetables</b>	<b>Consist and Crew Planning</b>	<b>Maintenance</b>
<b>Inputs</b>	Trip durations between stations  Dwell times	Ridership data  Time and attendance	Maintenance durations
<b>Value</b>	More efficient service scheduling	Improved allocation of resources  Visibility into hours of service violations	More accurate maintenance window planning

# Keys to implementing predictive analytics

Determine where  
the value lies

Don't overlook  
the human touch  
of planners

Relating cause  
and effect – don't  
learn bad  
practices

# Closing the loop

Powered by  
real-world  
data

Self-learning  
planning and  
scheduling  
system

**Thank you!**

**Join us tonight at the  
Quintiq Reception**  
*Latrobe Room, 6-8PM*

**Pete Nelson**

Solutions Architect, Quintiq
