Transit Challenges. Practical Solutions.

Report 200
Contracting Commuter Rail Services, Volume 1: Guidebook, Volume 2: Commuter Rail System Profiles

This report is a two-volume set that presents guidance on the different approaches for providing commuter rail service and includes decision trees to assist public transportation agencies and other key stakeholders in determining how to implement commuter rail or evaluate changes in their approach to service delivery of an existing system.

Report 144
Sharing the Costs of Human Services Transportation Volume 1: The Transportation Services Cost Sharing Toolkit

The report explores issues and potential solutions for identifying and sharing the cost of providing transportation services for access to community-based human services programs. Collectively, the two volumes examine current practices and offer strategies for collecting necessary data, addressing administrative and policy-related issues, and establishing cost allocation procedures. Volume 1: The Transportation Services Cost Sharing Toolkit leads the user through the process of setting up the necessary cost accounting system, identifying the data requirements and the measurement parameters, and describing procedures for applying the model. This volume includes instructions for using the actual Cost Sharing Model for setup and application on a CD-ROM. The CD-ROM is also available for download from TRB's website as an ISO image. An executive summary of the report is included.

Report 135
Controlling System Costs: Basic and Advanced Scheduling Manuals and Contemporary Issues in Transit Scheduling

This report explores information on available scheduling tools and techniques and their capabilities.

Report 131
A Guidebook for the Evaluation of Project Delivery Methods

This report examines various project delivery methods for major transit capital projects. The report also explores the impacts, advantages, and disadvantages of including operations and maintenance as a component of a contract for a project delivery method.

Report 130
Shared Use of Railroad Infrastructure with Noncompliant Public Transit Rail Vehicles: A Practitioner's Guide

This report examines a business case for the shared use of non-Federal Railroad Administration-compliant public transit rail vehicles (e.g., light rail vehicles) with freight operations and highlights a business model for such shared-use operations.

Report 129
Local and Regional Funding Mechanisms for Public Transportation

This report explores a series of transit funding mechanisms with a primary focus on traditional tax- and fee-based funding; and common business, activity, and related funding sources.
