Transit Challenges. Practical Solutions.

Rail Transit Maintenance

- Report 198**
The Relationship Between Transit Asset Condition and Service Quality
This report documents the development of a quantitative method for characterizing service quality and demonstrates how this quantitative measure varies with changes in asset condition. It provides guidance on how asset condition and transit service quality relate in terms of investment prioritization.
- Report 197**
Tools for a Sustainable Transit Agency
This report explores the development of two practical tools for improving sustainability at transit agencies: (1) The Sustainability Routemap: An interactive PDF, similar to a website, that guides the user to improve a transit agency's sustainability program through application of change management principles, best practice examples, and references to online tools. (2) The S+ROI Calculator: An Excel workbook that quantitatively evaluates potential sustainability projects in terms of financial, social, and environmental returns.
- Report 170**
Establishing a National Transit Industry Rail Vehicle Technician Qualification Program
This report describes a system of qualification that has been developed for rail vehicle technicians.
- Report 159**
Transforming Public Transportation Institutional and Business Models
This report offers strategy for defining and implementing transformative change in institutional and business models, thus facilitating the operation and maintenance of public transportation systems.
- Report 155**
Track Design Handbook for Light Rail Transit, Second Edition
This report provides guidelines and descriptions for the design of various common types of light rail transit track. Characteristics and interfaces of vehicle wheels and rail, tracks and wheel gauges, rail sections, alignments, speeds, and track moduli are considered in this report.
- Synthesis 107**
Rail Transit Track Inspection Practices
This synthesis offers information across a range of older and newer U.S. rail transit agencies on track inspection practices and policies.
