# Preparing for Upcoming DOT Discretionary Grant Opportunities

February 8, 2023

- Goals for today's webinar
- To ask questions, use the Q&A function
- Webinar will be recorded and posted on DOT Navigator site
- Slides will also be translated into Spanish

**First a few questions for all of you ...**

# Getting to Know Our Audience

## *Poll Question #1*

### **Please indicate which type of organization you represent**

- State government agency (or entity)
- Local government agency (or entity)
- Indian Tribe
- U.S. Territory
- Regional planning agency
- Transit agency
- Academic institution
- For-profit organization
- Non-profit organization
- Other (please specify in the chat)

# Getting to Know Our Audience Continued

## *Poll Question #2*

### **Please indicate your organization's experience with DOT discretionary funding**

- My organization has never applied for a DOT discretionary grant
- My organization has applied for one or more DOT discretionary grants but has not been funded
- My organization has applied and been selected for one or more DOT discretionary grants
- Not sure

The screenshot shows the DOT Navigator website. The header includes the U.S. Department of Transportation logo and navigation links: ABOUT DOT, PRIORITIES, and CONNECT. A search bar and social media icons are also present. The main banner features a photo of people walking and a person on a bicycle, with the text "DOT Navigator" and a description: "The DOT Navigator is a new resource to help communities understand the best ways to apply for grants, and to plan for and deliver transformative infrastructure projects and services." A red button labeled "LEARN MORE ABOUT THE DOT NAVIGATOR" is visible. Below the banner, there are three cards under the heading "WHAT DO YOU WANT TO DO?": "Apply for DOT Grants", "Find Technical Assistance Resources", and "Learn About the Bipartisan Infrastructure Law". The footer includes a "Stay Connected" section with a "SUBSCRIBE FOR UPDATES" button.

# Find Technical Assistance Resources

Search for existing resources available across DOT

- A variety of resources available across a range of transportation issues
- Some provide direct or on-call support, but many are online resources like training or explanatory videos, reports, toolkits, and guidance documents
- Frequently updated – we spotlight updates and upcoming trainings in the monthly DOT Navigator Bulletin Updates

## Stay Connected

## Technical Assistance Resources

At DOT, “technical assistance” includes programs, processes, and resources that provide targeted support to a community, region, organization, or other beneficiary to help them access and deploy federal funding and build local capacity to develop, design, and deliver transportation plans and projects.

View and search the table below to find existing technical assistance resources and programs funded or managed by DOT that can provide deeper levels of assistance, technical information, best practices, and training.

## Applicant Toolkit for Competitive Funding Programs at USDOT

The United States Department of Transportation (USDOT) has developed this Applicant Toolkit to provide guidance as part of the Rural Opportunities to Use Transportation for Economic Success (R.O.U.T.E.S.) Initiative to support potential applicants in identifying and navigating USDOT discretionary grant funding opportunities for rural transportation projects. In support of the initiative's goals, this toolkit provides user-friendly information and resources to support rural applicants' understanding of USDOT discretionary grant programs and the funding process.

The Applicant Toolkit is designed for all levels of grant applicant experience, aiming to enhance access to USDOT resources for rural transportation projects. Specifically, this toolkit illustrates key applicant activities when participating in the USDOT discretionary grants process, catalogues USDOT discretionary grant programs by applicant type and eligible project activities in a USDOT Discretionary Grant Funding Matrix, and provides resources for applicants to maximize the potential for award success.

# Most DOT Grant Programs Require Non-Federal Match

## Budget for and Secure Your Non-Federal Match

In preparing and finalizing city or agency budgets, think about the needs that may arise during the coming year. Sponsors should develop a budget that demonstrates how the budget will be funded in full.

As a condition for receiving funding, most DOT programs require a 10 percent or 20 percent [non-Federal match](#). Where may this match funding come from? What processes and timing are needed to confirm financial commitments as part of grant applications or if selected for a grant award? What steps can be taken in advance to ensure this process goes smoothly and your community doesn't miss out on the chance to apply or find itself unable to finalize a grant award? These are questions that cities or agencies should consider when trying to secure a non-Federal match.

The DOT Navigator provides additional information to help [understand non-Federal match requirements](#) and those programs that provide match flexibility:

- [Justice40 non-Federal match flexibility](#)
- [Tribal government cost share flexibility](#)
- [Rural cost share analysis](#)

# Federal Funds Come with Federal Requirements

## Get Ready to Apply for and Administer Federal Funding

Get [ready to apply for and administer Federal funding](#).

Ensure that your organization is [registered with Grants.gov](#) and the System for Award Management (SAM) and has an active Unique Entity Identifier (UEI) number. Is the information provided to Sam.gov current? If there have been personnel changes in your agency, be sure that the staff contact, phone number, and email are up to date. Start the registration process early, as the SAM.gov process can take many weeks.

If you receive funding, be familiar with the Federal [2 CFR 200 Uniform Administrative Requirements, Cost Principles, and Audit Requirements](#) that govern all DOT awards. This includes specifics for reporting, tracking, and monitoring financial systems and grant activities that differ from state or local requirements.

Be prepared for additional requirements. DOT grants are generally reimbursable funding, so plan and budget accordingly. Each program may have additional restrictions on eligible and allowable costs and activities. Lobbying is not an allowable cost, nor can DOT funds typically be used as a non-Federal match for other programs.

Involve [small and disadvantaged business enterprises](#) in projects and applications. Are there opportunities to strengthen the participation of these types of firms in your grant application to help build community wealth? Are you familiar with your [state's DBE resources](#)? Do these types of businesses need additional support within your community to have the capacity necessary to administer or receive Federal funding, i.e., they are also subject to 2 CFR 200?

# Tools to identify Justice 40 Areas in your community

## Know Your Justice40 Designated Census Tracts

Know your [Justice40 designated Census Tracts](#), as many discretionary grant programs give additional consideration to projects that benefit J40 census tracts.

Find out [which areas in your community qualify as J40 census tracts](#) according to Federal disadvantaged community tools, and which of the [39 DOT J40-covered programs](#) may be especially beneficial to your community.

## [Federal Tools to Determine Disadvantaged Community Status | US Department of Transportation](#)

### Transportation Disadvantaged Census Tracts (arcgis.com)

[Transportation Disadvantaged Census Tracts](#) is the most commonly used tool in USDOT discretionary grant programs to determine disadvantaged community status. The tool allows the mapping of project areas to determine level of disadvantage according to DOT's Justice40 definition.

### Areas of Persistent Poverty & Historically Disadvantaged Communities

[Areas of Persistent Poverty & Historically Disadvantaged Communities](#) lists Census Tracts that qualify as Areas of Persistent Poverty & Disadvantaged Communities according to DOT's Justice40 definition.

### EJScreen: Environmental Justice Screening and Mapping Tool (EPA)

[EJScreen](#) is an environmental justice mapping and screening tool that provides demographic and environmental information for a project area.

### The Climate and Economic Justice Screening Tool (CEJ)

Currently in BETA form, the [Climate and Economic Justice Screening Tool](#) identifies disadvantaged communities that are marginalized, underserved, and overburdened by pollution.

While in BETA form, CEJ asks that transportation projects use DOT's [Transportation Disadvantaged Census Tracts](#) tool to identify disadvantaged communities.

### Social Vulnerability Index (CDC)

The [Social Vulnerability Index](#) provides databases to help emergency response planners and public health officials identify and map communities that will most likely need support before, during, and after a hazardous event.

Sample data from [Transportation Disadvantaged Census Tracts](#) is the most commonly used tool in USDOT discretionary grant programs to determine disadvantaged community status.
