Next Steps	Sheila Jordan
Next Meeting	Sheila Jordan
Adjourn	

2023-2024 Goals

1. Create an ongoing forum that brings together industry professionals, agencies, OEMs, and other partners to develop innovative strategies for the future workforce in Transit. This includes,
   a. Increase awareness and access to apprenticeship programs, CTEs, and secondary college programs that have accessible and ready-to-deliver programs agencies can emulate to increase workforce readiness.
   b. Develop a resource directory of National apprentice programs in the US with successful models and outcomes.
   c. Develop a best practice guide with templates that can be used by agencies to pilot and implement and pilot.

2. Develop a white paper on talent development, staffing, and training requirements for Transit IT departments to assist in upskilling their internal IT departments to meet the immediate challenges they face with advanced systems for infrastructure and zero-emission technology systems.
